Experience

Mu-zero technologies pvt. ltd.

Dec 2023 – Present

Software Developer

- **Developed and maintained** scalable web and mobile applications using **React.js, TypeScript, Node.js, MongoDB, and React Native**, delivering responsive user interfaces, reusable components, and reliable production-ready business features.
- **Designed and implemented** secure **RESTful APIs** with **JWT authentication**, request validation, error handling, and optimized **CRUD operations**, ensuring seamless frontend-backend communication, reliability, and consistent data integrity.
- **Resolved 60+** critical production **bugs** and optimized **web** and **React Native** applications, **reducing load time, boosting** product **efficiency** by 30–35%, and delivering a **faster, more reliable**, and seamless user experience **across** platforms.
- Collaborated with cross-functional teams to deliver production-ready features on schedule, participating in **planning, code reviews, debugging, testing, Play Store app releases**, and deploying **web applications** on **AWS EC2** using **Nginx**.
- **Upgraded legacy web and mobile** applications by migrating **Node.js** from **v14** to the latest version and **React 16 to 18+**, **React Native** from **v0.63 to v0.81**, resolving compatibility issues, dependencies, and improving application performance.

Projects

CaseOps AI

Apr 2026 – Present

- Designed and implemented a Retrieval-Augmented Generation (**RAG**) system using **OpenAI LLM** to deliver **accurate**, context-aware responses by retrieving legal **document** content, **improving search accuracy**, response **quality**, and user experience.
- Collected and processed legal datasets (1950–2025) from **PDF** and **DOC** files, **extracted text**, and performed extensive data cleaning by **removing headers, footers, page numbers**, and noisy content to prepare high-quality data for **indexing**.
- Created optimized **semantic chunks**, generated **vector embeddings**, stored processed legal documents in **Qdrant Vector Database**, enabling efficient similarity search, fast retrieval, and improved contextual accuracy for **AI-powered** responses.
- Developed a Retrieval-Augmented Generation (**RAG**) pipeline that retrieves the most relevant **legal document context** from **Qdrant Vector Database** and generates accurate, context responses using **OpenAI LLM** with higher retrieval precision.

CampusPe (Visitor Management System)

Apr 2025 – Nov 2025

- Developed a **QR code-based** Visitor Management System enabling secure visitor **check-in** and **check-out** with **real-time** entry tracking, **digital visitor passes**, and streamlined visitor **monitoring** to improve security and operational efficiency.
- Integrated third-party **APIs** for **QR** code generation, SMS and email notifications system, and **identity verification**, streamlining **visitor onboarding**, enhancing **communication**, and improving the overall visitor management experience.
- Designed and implemented role-based access control (**RBAC**) for **Admin, Security Guard, and Employee**, **User dashboards**, enabling secure visitor **approvals**, access management, **record tracking**, and permission-based system operations.
- Built **RESTful APIs** for visitor registration, host approval workflows, QR pass generation, visit history management, and **MongoDB** data operations, ensuring secure, **scalable, optimized** and efficient handling of visitor information.
- Optimized the system with **real-time visitor status tracking**, **digital visitor passes**, **automated reporting**, and enhanced **monitoring** features, significantly improving **security**, operational **efficiency**, and **reducing** manual paperwork.

Skills

- **Languages:** Java, JavaScript
- **Frameworks:** React, Node.js, MongoDB, React Native, Express.js, Spring Boot, SQL, AI / GenAI
- **Tools:** GitHub, VS Code, Postman, Git
- **Platforms:** Vercel, AWS, Docker, Nginx, Linux
- **Computer Science Fundamentals:** Data Structures & Algorithms (DSA), System Design, OOPS, Database Design

Education

Accurate Institute of Management and technology

Jun 2016 – Jun 2020

B.Tech in Computer Science and Engineering

Greater Noida
